

Dynamics 365 Business Central

Incremental Group

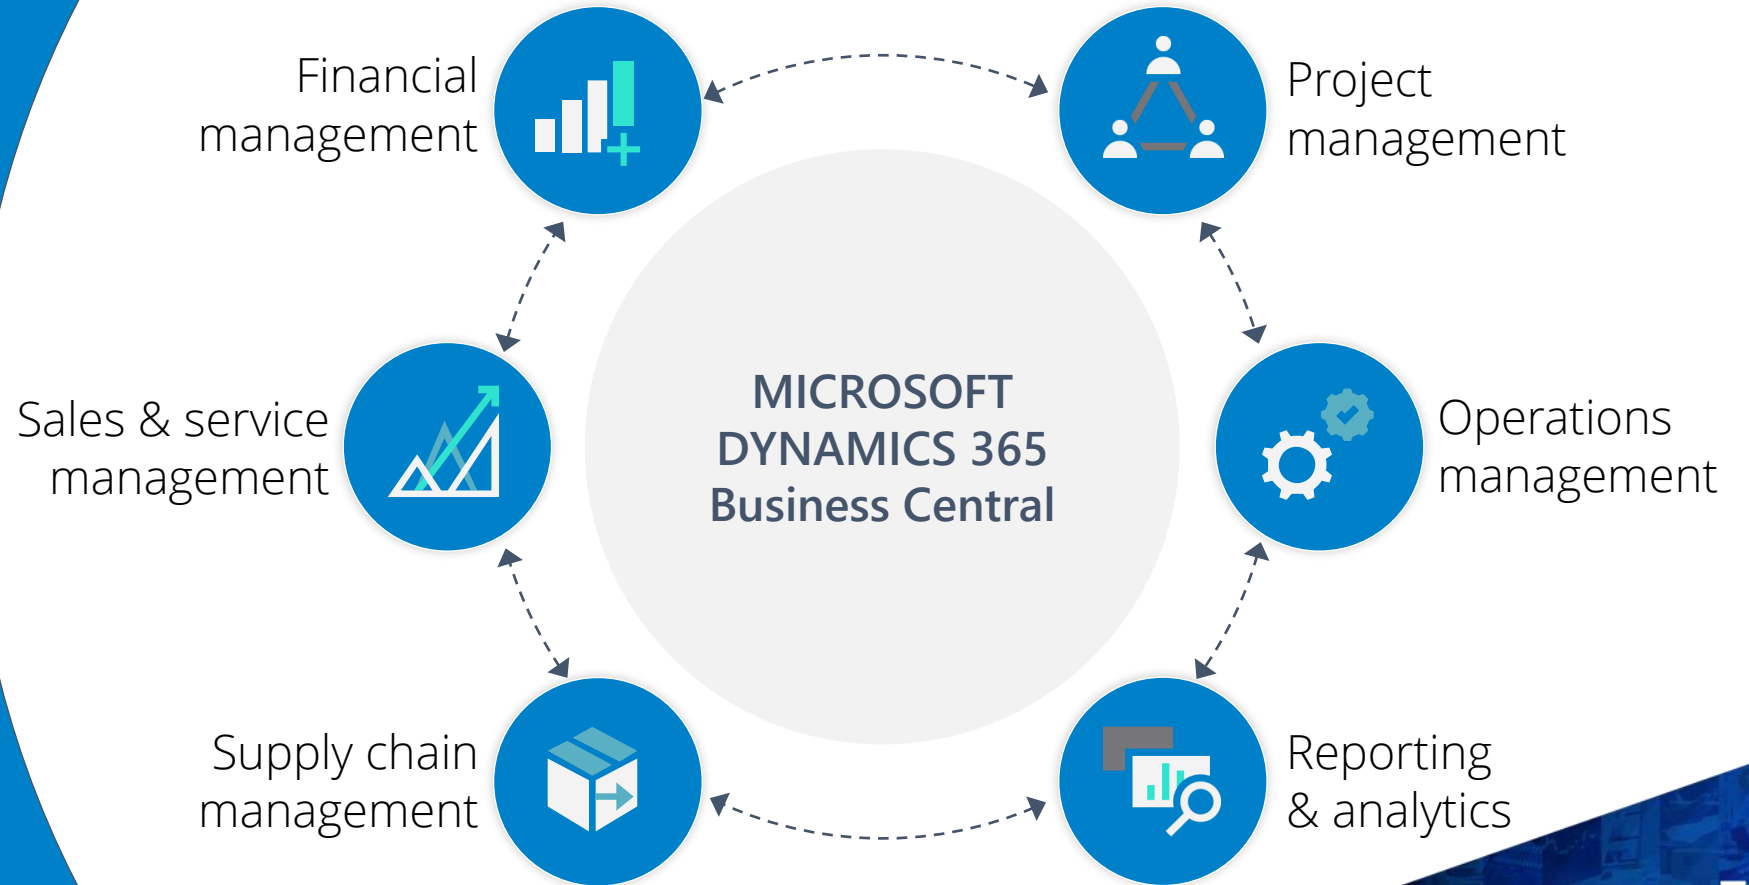

A cloud ERP solution for
businesses making the next
step

Dynamics 365 Business Central

Integrate the disparate and siloed functions of your business in a single integrated system.

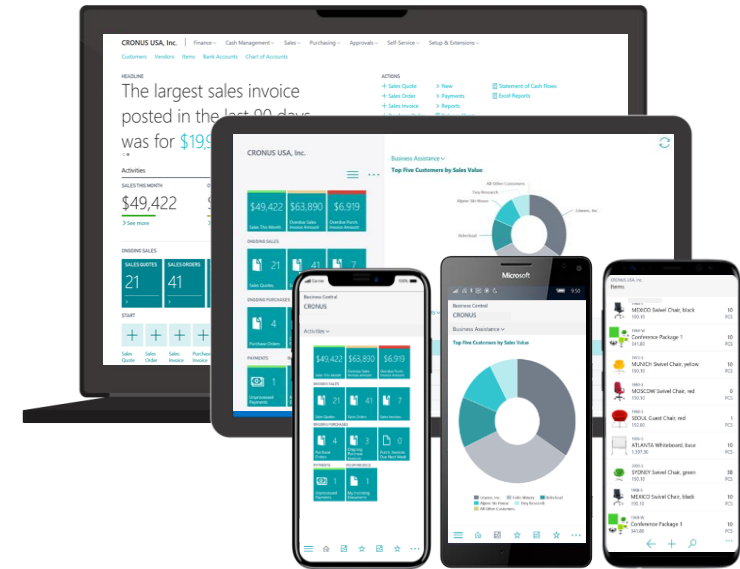

Automatically pull systems and processes together to manage financials, sales, service, and operations.

Everything included

We offer a complete Dynamics 365 Business Central delivery approach

Our approach is designed to deliver a significant return on investment and high user adoption quickly.

Designed around you

We kick off your implementation with workshops with your team

We gather your requirements and understand your business processes, to ensure we implement a system that truly delivers for you.

Implementation

We deliver Business Central in a matter of weeks.

- Built around your requirements
- Configuration of core Business Central capability
- Delivered by Dynamics 365 consultants and a project manager
- Delivered incrementally in phases.

Data migration

Data is the lifeblood of your organisation and Dynamics 365 Business Central is the perfect home for your data

We migrate your core data into Dynamics 365 Business Central helping to create value from the start. We transfer opening balances and master data using a standardised import method to simplify the process.

Licences

We include 10 licences

Essential

5 Essential licences included providing full access to Dynamics 365 Business Central

Team Member

5 Team Member licences included for users who need limited access to the system, for read only, approvals and running reports

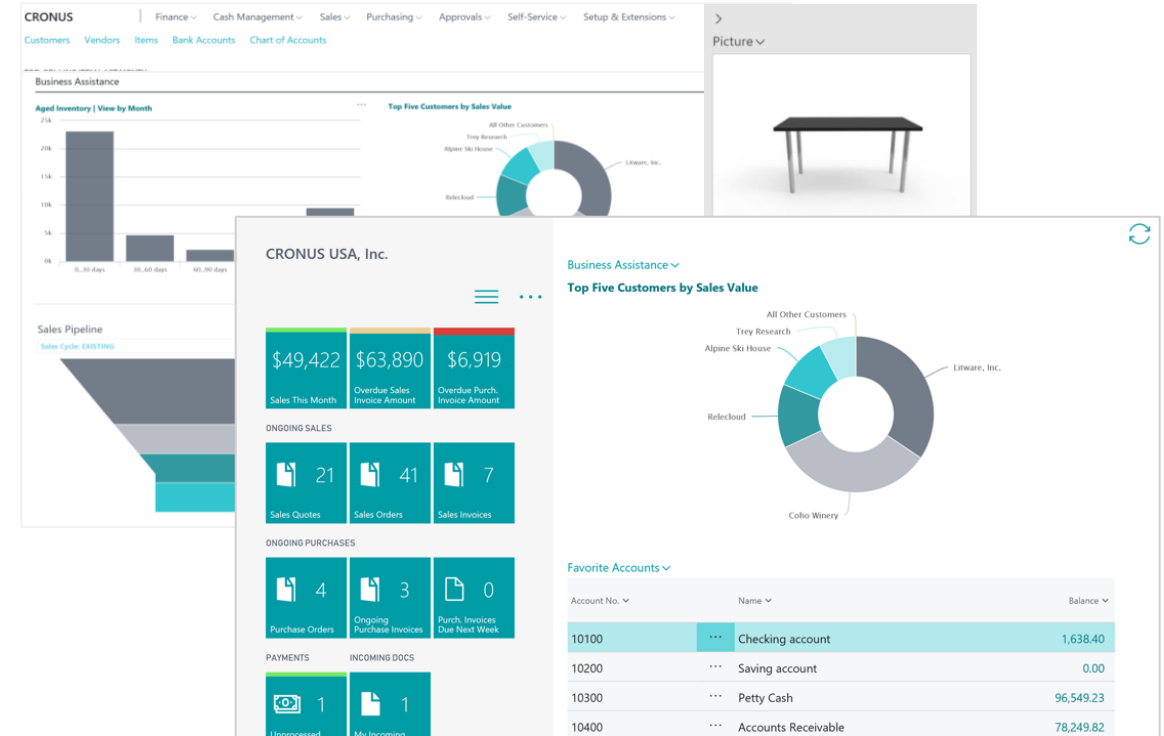

Additional licences available

Reporting

Dynamics 365 Business Central comes with advanced reporting; out-of-the-box reports and embedded Power BI

We provide additional finance KPIs including profit margin %, debtor days, working capital, operating cashflow and inventory turnover.

Fully connected ecosystem

Dynamics 365 Business Central is built around a fully connected ecosystem

There are hundreds of third party applications and extensions available including payroll, expense management and eCommerce.

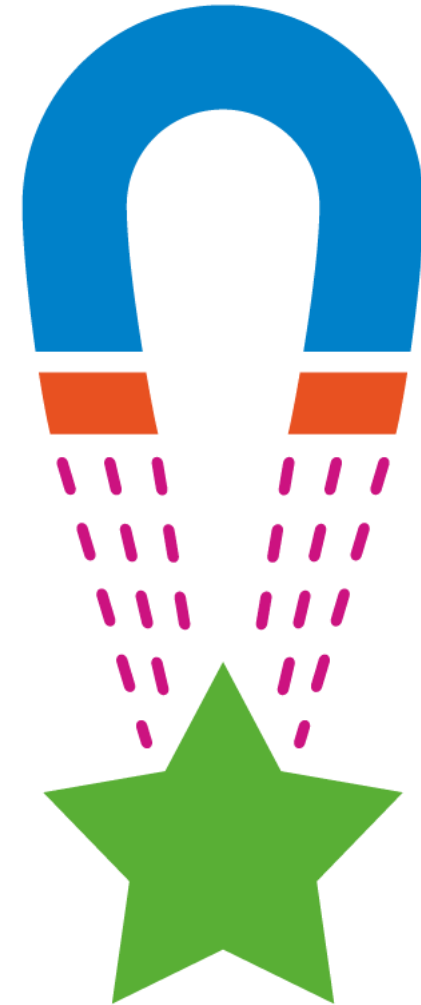

Training

User adoption is a critical factor in delivering business returns

We provide 5 full days of training included as part of our implementation.

Our tailored training approach gets users involved early and ensures knowledge transfer throughout the process.

Cost

We offer our customers the full implementation and year 1 licenses.

- This includes implementation, training, data migration and licences
- Quotes can be provided for any additional requirements
- Terms and conditions apply.

For cost enquiries, please [get in touch](#).
